Subject: Estimate of Pension Calculations – update # 006

As you may have gathered the topic concerning your pension plan (PPMP) remains active.

Retraite Quebec has, in its recent publication, entitled INFO. RQ made public new information procedures. It is now possible to obtain an estimation of the amount of your pension that you may receive at retirement occurring not before the fourth (4th) month of the current date to twenty-fourth (24th) month before you anticipate retiring. This is instead of from the fourth (4th) month to the fourteenth (14th) month. This means you can project further into the future than before.

EG. Now April 2019 – as of August 2019 you can request for a projection of the potential amount for a retirement as of April 2021.

Requirement - You can ask for an estimate only if you intend to retire within 4 to 24 months from now. Simply fill out, sign and send us the [Application for a Pension Estimate](#) (RSP-009A) form.

In other cases, you can use the [Pension Estimator](#).

You should also note that there is a great deal of information on the Retraite Quebec web-site listed below.

https://www.carra.gouv.qc.ca/ang/formulaire/formulaires_estimation_009.htm
