Subject: 2019 Statement of Participation – PPMP – RRPE

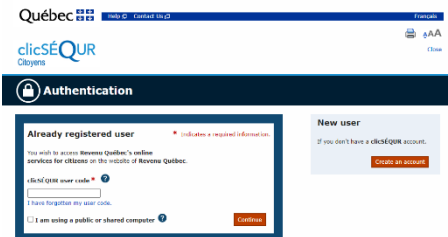

About one month ago a postcard entitled Pension Plan Bulletins - PPMP – RRPE was sent to members of AAESQ which indicated that a new process was about to be launched on the method of transmission and the availability of your pension plan contribution. In the past the bulletins were only available every two years due to the annual salary verification process as the information required confirmation by your employer on an annual basis.

Once you submit your application of your effective retirement date your data is updated to present you with a preliminary annual pension. This requires to be finalized, within a few months, and it has an appropriate retroactive effect.

We have been informed that the 2019 Annual Statement of Participation will only be available in an electronic manner at the end of March 2021.

To obtain your data, which I highly recommend, you must have a “clicSÉQUR” account with “Revenu Québec”. It is also recommended that you review the accuracy of your statement and that if you believe that it might be incorrect that you see to having it corrected sooner rather than later.

It involves a few simple electronic steps which are completed by using the link shown below.
